

SCHOOL ON NUMERICAL METHODS IN GRAVITY AND HOLOGRAPHY

2017, November 27th-December 1st

Dr. Tomás Andrade

Universitat de Barcelona,
Barcelona, Spain

HOLOGRAPHIC
LATTICES AND AdS/CMT

Dr. Luis Lehner

Perimeter Institute,
Waterloo, Canada

GRAVITY IN THE
STRONG REGIME

Dr. Stephen Green

Max Planck Institute for Gravitational
Physics (Albert Einstein Institute)
Potsdam-Golm, Germany

STABILITY OF
GRAVITATIONAL SYSTEMS
ON BOUNDED DOMAINS

Organizers:

Andrés Anabalón (UAI)
Fernando Izaurieta (UdeC)
Julio Oliva (UdeC)
Guillermo Rubilar (UdeC)

Facultad de Ciencias Físicas
y Matemáticas,
Auditorio Alamiro Robledo
**Universidad de
Concepción**

No formal knowledge on coding will be assumed. However, it would be helpful to know some basic tools of C, Fortran, Maple, Mathematica, Matlab or Python. There are some fellowships for students and young postdoctoral researchers to cover tickets and accommodation in Concepción. In order to apply for the fellowships you must write an email to julioolivazapata@gmail.com with your current affiliation and line of research. Students should also provide the name of a professor for possible reference.

School partially funded by CONICYT grant NEWTON-PICARTE DPI20140053.

For more information, visit <http://www2.udec.cl/~juoliva/nrandholography.html>.
