

SPECIAL SESSION AND FORUM on SPACE AGENCIES PROGRAMS AND PLANS. PORSEC-2004, Dec-3. CONCEPCION-CHILE

The Local Organizing Committee for PORSEC-2004, takes pleasure to present to the participants and the interested international community, the CD containing the lectures addressed by the representatives of the participating Space Agencies to the general audience. To the **eight** official invited lectures we have added one by Dr. Pascal Lecomte on ENVISAT, of special interest to participants from developing countries. This lecture opened the session on *Remote sensing applications and new technologies* which took place on Tuesday, November 30, 2004.

The titles for the included lectures are the following:

1. JAXA's Earth Observation program status. By Dr. Tasaku Tanaka, EORC, JAXA
2. Monitoring the Earth environment: the ENVISAT mission. By Dr. Pascal Lecomte, ESA
3. ESA Earth Observation Programme. By Dr. Pascal Lecomte, ESA
4. NASA's Partnerships to Observe the Ocean. By Drs. Eric Lindstrom and Sirpa Hakkinen, NASA
5. Argentine National Space Program CONAE. By Dr. Fernando R. Colomb, CONAE
6. Present and Future activities in Remote Sensing at NOAA. By Dr. Pablo Clemente-Colón, NOAA
7. Aspects of past and future Cooperation Projects in Remote Sensing between Germany and Latin America. By Dr. Klaus Reiniger, DLR
8. The CNES Earth Science Program. Objectives, International Cooperation and Applications. By Dr. Aurélie Sand, CNES
9. Metrology on Remote Sensing PORSEC2004. By Jorge Carranza C., MSc.E.E., University of Concepcion, Engineering Faculty

The Editors and the University of Concepcion, heartily thanks the involved Space Agencies and their participants.

Prof. José Stuardo, Oceanography
Prof. Jorge Carranza, Engineering
For the Organizing Committee.
